

SUMMER CAMPS COUNTDOWN – notes by WLW

1. The date to change is in /themes/summer2015/js/global_vars.js

Online File Editor: **themes/summer2015/js/global_vars.js**

```
// Navigation
// =====

// =====
// Site Search
// =====

$('.search__field').attr('placeholder', '');
$('.search').click(function() {
  $('body').addClass('search--active');
});
$(document).on('click', function(event) {
  if (!$('event.target').closest('.search').length) {
    $('body').removeClass('search--active');
  }
});

// =====
// Countdown to Camp
// =====
$('.countdown-to-camp .bannermodtitle').countdown("2015/06/15", function(event) {
  $(this).text(
    event.strftime("%D days")
  );
});
$('.countdown-to-camp').each(function () {
  $(this).find('.bannermodtitle').insertBefore($(this).find('.bannermodcontent'));
});

// =====
// Reorder Calendar Output
// =====
```

Save File

[sample page- https://www.evernote.com/l/AMvcEJdarxpO_rgi4y3DjDvjPzwW5ofHNdl]

2. Change highlighted code (YYYY/MM/DD):
`$('.countdown-to-camp .bannermodtitle').countdown("2019/06/17", function(event)`
Make sure you make the month and day two digits (02 vs 2).
3. After updating the js file, you'll either need to clear your cache or hard-refresh your browser.
(Ctrl+F5 on Windows, Cmd+R on Mac)
